[Tailwind CSS](#)

MotivaBOT is an interactive, personal motivation and self-improvement dashboard built with React, Three.js, Lucide Icons, and Gemini API.

Features

-  **Personality Assessment:** Customized onboarding to understand your core drivers and schedule.
-  **Gemini-Powered Quote Engine:** Channel authentic historical figures using structured JSON generation with Gemini 2.5 Flash.
-  **Goal Tracking:** Set, track, filter, and increment progress on personal goals.
-  **Mood & Habit Logger:** Track daily moods, habits, and maintain active streak tracking.
-  **Daily Horoscope:** Cosmic insights and lucky indicators based on your zodiac sign.
-  **Gamified Badges:** Earn achievements for consistency and progress.
-  **Data Export:** Download your data anytime as raw JSON or CSV spreadsheet formats.
-  **3D Particle Canvas:** Interactive background powered by Three.js.

Tech Stack

- **Framework:** React 18 / Vite
- **3D Graphics:** Three.js
- **AI Integration:** Google Gemini API (gemini-2.5-flash-preview-09-2025)
- **Iconography:** Lucide React
- **Styling:** CSS-in-JS + Tailwind CSS

Quick Start

Prerequisites

- [Node.js](#) (v18 or higher)
- npm or yarn
